

Henley Chapel May 2025

At Henley Chapel this year our two big projects, which are under construction, are the replacing of the chapel door which, after many years of repairs and repainting, has to go, and the designing of a new website.

We have celebrated Michael and Sheila's 60th wedding anniversary with one of the highlights being the ringing of the church bells at High Ham.

We also lost Guy Tapscott who although being unable to attend in his later years, always kept in touch with what was happening.

The Chapel has unfortunately suffered damage to the building again. Last year thieves, we assume, driving a vehicle at speed tore down the safety railings attached to the entrance of the Chapel which left the doorway unprotected. So far any ideas we have suggested to the county council to improve safety around the access have been refused or the cost prohibitive.

We continue to have our weekly services on Sunday afternoon at 5pm with an inspiring range of visiting speakers supported by our music group, then followed by a shared tea.
